THANK YOU for giving us a SECOND CHANCE at a HAPPY LIFE!

Our names are Buddy and Bella. We're all smiles now that we're safe and loved but that wasn't always the case.

We were surviving on a construction site in Mesa during the middle of the summer. We lived off of scraps and handouts from the workers. They tried their best to help us, but we were frightened. Luckily, volunteers from Animals Benefit Club rescued us. We both received much needed medical care from the vet, including surgery to repair Bella's hernia. Now at ABC, we get daily meals, a cozy bed, and play time outside, which we love!

Through no fault of our own we ended up homeless, but because of ABC we've been given a second chance. Their Street Rescue Program helps to reduce the pet overpopulation and alleviate the suffering of homeless animals like us.

Phoebe was found roaming the streets without a collar or tags. She may be pint-sized, but she has a big heart and loves people and other dogs, especially her best friend Annie. Annie was rescued by an ABC volunteer from behind a shopping mall where she had been eating trash to survive.

Nugget is the most extraordinary cat. He was found waiting for food in a feral cat community. He was so

friendly and outgoing it was obvious he wasn't feral, so a caretaker rescued him. Despite the severe, painful inflammation of his mouth and gums and extensive extractions, his sweet personality never wavered, not even when he was given his pain meds!

Emma was found wandering around rural Camp Verde. Now that she's safe at ABC she loves to run around and play with her friends. This youthful, energetic girl needs a home with an active family and a tall fence.

Strawberry was born at ABC after her mom was rescued from the streets. Thankfully this helped prevent Strawberry and her three siblings from having babies of their own and contributing to the pet overpopulation.

Gemma was abandoned in a box along with her medical records. We can't figure out why, because she is super affectionate and quite the social butterfly!

It was your support that provided us with food, shelter, and medical care (and lots of love!) when we needed it the most. Please make a tax-deductible gift today and help ABC continue to give second chances to animals just like us!
